PROJECTS

The Chatori Spot – A Mini Restaurant Website

Tools: HTML, CSS, JavaScript

- Developed a fully responsive multi-page restaurant website using pure HTML, CSS, and JavaScript
- Have sections like Home, Menu, Gallery, About, and Contact to simulate a real restaurant experience
- Designed interactive elements such as image zoom effects and a working contact form using JavaScript

RkBlog–A Full-Stack Blogging Platform

Tools: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Mongoose

- Built a full-stack blogging platform where users can create, view, edit, and delete blog posts
- Implemented user authentication and authorization using JWT and bcrypt for secure access control
- Enabled image uploads in blog posts with seamless integration of Cloudinary
- Used MongoDB Atlas with Mongoose for scalable data storage

EXPERIENCE

Aagaaz Training Centre Pvt. Ltd, Patna

June 2025 - July 2025

Web Development Intern– MERN Stack

- Developed and enhanced internal dashboards (CDL, Collection, and Credit Dashboards) using React.js, Node.js, Express.js, and MongoDB.
- Integrated feedback and comment features with date/user tracking across multiple dashboards.
- Contributed to an end-to-end live project, ensuring accurate data flow and enhanced user experiences.
- Implemented UI components with Material UI Framework and improved existing page styling.
